

## Price list SPITA ResQ-mold

**SPITA ResQ-mold** is a silicone putty for use in cracks and voids in damaged pipes or hoses. The putty molds easily into small cracks or pinholes on pipes and rigid hoses. Excellent for sealing air and steam leaks in combination with SPITA ResQ-tape. The putty always needs to be overwrapped with SPITA ResQ-tape to keep it in place.

With **SPITA ResQ-mold** you can also create copies of rubber objects (such as sealing rings).

**SPITA ResQ mold** remains moldable until it becomes by heating into a shape-retaining strong, durable rubber part (without expansion or contraction).

Details can be found on our website, or requested by sending an e-mail to: [sales@spita.eu](mailto:sales@spita.eu).

### **ResQ-mold 25mm x 0,45m x 3,1mm (width x length x thickness)**

**WARNING:** After using / touching the silicon putty it is recommended to wash your hands to remove small particles from the skin. You can use common hand soap.
